

TECHNICAL DATA SHEET (TDS)

Product Name: Med-Cover Lice Cap

Category: Medical Device

1. General Product Description

Lice Cap has been developed for lice treatment. Lice Cap kills lice with natural essential oils such as: Tea tree oil, Eucalyptus oil, Lavender oil, Aloe vera oil. Turpentine oil compounds can pass through the cuticle of the louse up to the trachea causing the death of the head lice by suffocation. The natural oils help to heal the scalp from painful bites and the results of scratching and itching. There are no toxic chemicals, no harsh materials and no insecticides in our special formula.

- ✓ Ready to use. Easy to apply.
- ✓ Results are visible within just 45 minutes.
- ✓ With no pesticides, silicone or plastic

2. Instructions for Use

- Collect the parasitic hair with a buckle on the head.
- Pull the Lice Cap from the tires and place the hair on the back of the nape and the back of the ear so that they remain inside the Lice Cap. Massaging the hair through Lice Cep once every 10 minutes should make the hair move and make it easier to distribute the formulation homogeneously to each region. The Lice Cap should stay in your head for at least 45 minutes.
- Remove Lice Cap after 45 minutes. Remove dead lice with lice comb. Comb your hair with a lice comb daily for the next 3 days.
- For the remaining lice eggs in your head, you should apply the 2nd cap after 2 weeks of the first application.

3. Warnings

Do not use damaged packages. The product is disposable, do not use the product again. 0-6 month old babies, suckling and pregnant women should use with doctor's advice. Do not use any other lice product before or after the Lice Cap. Avoid eye contact. In case of contact with eyes, rinse immediately with plenty of water and contact your doctor.
